

 SINOZ

About Us

As Sinoz Cosmetics, we have achieved to become one of the essential skincare brands for women all over the world with our innovative, high-quality, and rich product range in the field of skincare since our establishment in 2008. Our adventure, which started with the R&D process, continues with the delivery of the product to the consumer, after-sales services focused on customer satisfaction, and innovative, sustainable, and high-quality production and service understanding that we have been doing since our establishment.

We embrace the awareness of "Cleansing - Moisturizing and Sun Protection", which are the 3 basic steps of having healthy skin, and we help our consumers discover the beauty in their skin.

As Sinoz Cosmetics, consumers voted us as the "Most Trusted and Preferred Brand" in the Women's Brand Preference Index Research by Turkish Reputation Academy.

Since 2016, we have started to meet with our customers in many European countries through our European headquarters in Amsterdam, the Netherlands.

We produce 98% of our products from recyclable packaging, keeping our sensitivity to human health and the environment at the forefront. We are proud to be a brand approved by PETA, the world's largest animal rights organization. We include vegan products in our product range and we refuse to test our products on animals.

We shape all our works with this awareness in order to respect nature and leave a sustainable life to future generations, and we take part in many social responsibility projects for this purpose. The green color in our logo represents our sensitivity and love for the environment and all living creatures.
